specific types of domestic service which would qualify an individual for participation in the CIA Retirement System. As a result of information developed in connection with several of our early nominations, we have been able to take action on the majority of those cases which had been deferred for some time and to substantially reduce the pending cases.

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Implementation of the CIA Retirement and
Disability System

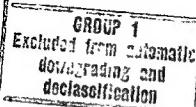

REFERENCE : Your memo, dtd 25 Jan 66, same subject

1. In response to your request the following information is submitted:

<u>Call Up List No.</u>	<u>Number on List</u>	<u>Number Nominated</u>	<u>Number Red Lined</u>	<u>Cases Pending</u>
-----------------------------	---------------------------	-----------------------------	-----------------------------	--------------------------

2. The cases on call up list number 4, which were received on 10 January are currently being processed with the expectation that they will be completed during the month of February. On call up list number 3, we submitted six applications for participation on the assumption that they would meet the qualifying service time formula. After a recent review, it has now been determined that these individuals will not meet the time requirements and the Agency Retirement Board has been so advised. We expect these notifications of non-eligibility in the near future. We do not have any backlogs nor do we anticipate any difficulties in processing our cases.
